## Calligraphy Experience

In the quiet flow of time, calming the mind and moving the brush offers a new and creative sensory experience, different from everyday life.

In today's digital world, taking a moment to use brush and ink on paper feels both nostalgic and refreshingly new.

The session begins with a gentle introduction to basic brush techniques, followed by creating your own favorite character or design.

Your finished piece will be framed and can be taken home as a special keepsake.

We hope you will enjoy a peaceful and enriching moment while experiencing the beauty of Japanese calligraphy
